More Time for Exceptions to Decision on Chicago Milk Order

The U.S. Department of Agriculture has extended to February 19 the time for filing exceptions to its recommended decision on re-establishing a Federal milk marketing order for Chicago and merging it with five nearby milk orders.

USDA's Consumer and Marketing Service officials said the new closing date for filing exceptions will provide a month beyond the previously announced January 19 deadline. An extension in the filing period was requested by milk dealers and producer groups who would be affected by the proposed new order, if issued.

Exceptions or comments should be filed on or before February 19, in four copies, with the Hearing Clerk, Rm. 112-A, U.S. Department of Agriculture, Washington, D.C. 20250, where they will be available for inspection.

National Hearing on Filled Milk

The USDA is planning to hold a public hearing to consider appropriate regulation under Federal milk orders of "filled milk" and other fluid products marketed as milk substitutes or in imitation of milk and containing both milk and nonmilk ingredients.

The hearing is planned to be held beginning February 19, 1968, at the Chisca Plaza Hotel, 272 South Main Street, Memphis, Tennessee.

Since the purpose of the national hearing will be to consider if uniform provisions in all orders will be feasible, the Department proposes to reopen the record (only with respect to this subject matter) of the public hearing held on May 3-26, 1967, with respect to proposed amendments to the Madison, Milwaukee and Northeastern Wisconsin milk orders. Proposals with respect to these orders, therefore, will be given consideration.

Proposed Suspension of Certain Provisions of The Madison, Wisconsin, Marketing Area

The U.S. Department of Agriculture has announced it is considering for the period of March through June 1968, the suspension of certain provisions of the order regulating the handling of milk in the Madison, Wisconsin, Marketing area.

The provisions proposed to be suspended relate to the pool plant qualification. They are the words "each of", the letter "s" on "months", and the words "September through" all in §1051.11(b). This suspension would result in §1051.11(b) reading as follows:

" §1051.11 Pool plant.

(b) A supply plant from which not less than 50 per cent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products to pool plants qualified pursuant to paragraph (2) of this section: *Provided*, That a supply plant which qualified pursuant to this paragraph during the immediately preceding month of November, shall be a pool plant for the months of March through June unless written application is filed with the market administrator on or before the first day of any such month to be designated a

nonpool plant for such month and for each subsequent month through June during which it would not otherwise qualify as a pool plant."

The proposed suspension would permit supply plants to remain qualified as pool plants during March through June of 1968 if they qualified as supply plants during November 1967.

This action was requested by cooperative associations whose supply plants failed to qualify during the month of September 1967, not because of any change in their operations, but because a distributing plant to which they shipped a large volume of milk lost its status as a pool distributing plant. This distributing plant which has its primary distribution in the Madison marketing area lost its status as a pool distributing plant for one month.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C., 20250, not later than February 6, 1968. All documents filed should be in quadruplicate.

* Subject to location differentials where applicable. In the case of members of approved cooperatives, these prices are subject to the deductions authorized by the associations. The prices listed do not include any premium payments which may be paid by handlers and which may bring actual payments in excess of the minimum requirements.

WISCONSIN FEDERAL MILK ORDER BULLETIN

PUBLISHED MONTHLY BY
Federal Milk Market Administrator
4920 West Burleigh Street
Milwaukee, Wisconsin 53210

FOR THE
MILWAUKEE, NORTHEASTERN and MADISON MARKETING AREAS

This bulletin is primarily to provide producers who are not members of cooperative associations with market information in accordance with §1039.74 of the Milwaukee Wisconsin marketing order, §1045.75 of the Northeastern Wisconsin marketing order, and §1051.77 of the Madison Wisconsin marketing order.

COMPARISON OF DAILY PRODUCER DELIVERIES TO DAILY CLASS I UTILIZATION

Dismissal of Milk Price Suit Affirmed

The United States circuit court of appeals has affirmed a lower court decision dismissing a suit designed to increase the price of milk paid to some 9000 dairy farmers in the Milwaukee milkshed.

The suit was instituted by Pure Milk Products Cooperative of Fond du Lac and Donald Uelmen of Eden, a PMPC vice-president, against Agriculture Secretary Freeman.

It requested the federal court to hold illegal a 24¢ per hundredweight supply-demand adjuster reduction in Class I fluid milk prices under Milwaukee's federal milk marketing order.

District Judge John W. Reynolds last May dismissed the suit. He held that PMPC and Uelmen did not have the standing to start such an action. He also found that Secretary Freeman acted in accordance with the order in imposing the supply-demand adjuster.

USDA's Activities in 1967 for Promoting Milk Consumption

Secretary of Agriculture Freeman reported the U.S. Department of Agriculture programs to encourage consumption of milk and dairy products provided additional outlets for the equivalent of some 7 billion pounds of milk, or about 6% of total U.S. milk production in 1967.

More than 6 billion half-pints of milk — about 3.5 billion pounds of milk — were consumed by children in the National School Lunch and Special Milk Programs, and about 126 million pounds of nonfat dry milk, 124 million pounds of butter, and 108 million pounds of cheese were donated for distribution to schools, needy families and charitable institutions. In addition, the expansion of the Food Stamp Program has been of direct benefit to the dairy industry and low-income consumers.

The USDA recently made available from Commodity Credit Corporation surplus stocks 30 million pounds of butter, 5 million pounds of cheese, and 300 thousand pounds of nonfat dry milk for military use. Surplus dairy products were made available to the Veterans Administration. In addition, about 350 million pounds of nonfat dry milk has been donated for foreign school lunch and welfare uses.

Milk and dairy products have been included in USDA's Plentiful Foods Program during the year which helps to move agricultural products in plentiful supply to consumers, through normal commercial channels. The USDA also prepares and distributes to institutions and newspapers, recipes built around dairy products.

The use of the USDA grade shield on dairy products, together with other inspection services provided by the Dairy Division of C&MS, assures consumers of high-quality dairy products, thus encouraging consumption.
